TECHNICAL SPORTSWEAR

WWW.SILVINI.COM

SILVINI[®]

YOUR RIDE / YOUR CHOICE

We are a self-confident company made of people who live for sports. We have an excellent relationship among ourselves, as well as with our business partners and customers. We closely specialize in technical sportswear. Our number one sport is cycling, but during winter, we also focus on cross-country skiing, which is the perfect alternative to cycling when snow arrives. We are experts on both sports.

Two is power. Two cycling wheels, united in one powerful machine. A machine that pushes you to the limits and then a little further. Is your heart calling for road cycling, enduro or MTB? The choice is yours. You always choose the ride. We will make sure that you will enjoy it to the fullest.

A smooth track that cuts both fresh snow and freezing air. An elegant movement balanced by the fast heartbeat of an enthusiastic cross-country skier. Let your body feel the magic of the winter landscape. Going for a race or just for a winter holiday? It's your choice.

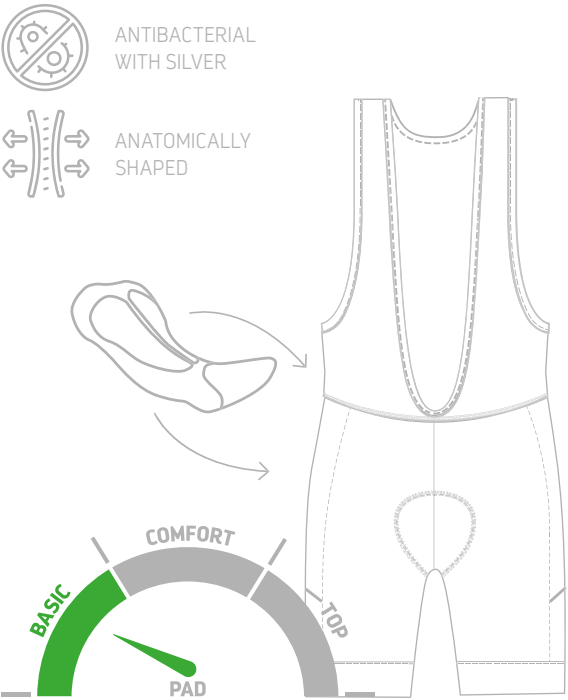

**We will dress you for both sports.
Silvini. Your ride, Your Choice**

A stylized, handwritten signature in black ink, consisting of several fluid, overlapping strokes that form a unique, cursive-like script.

YOUR RIDE
YOUR CHOICE

THERE ARE CYCLING PADS AND CYCLING PADS...
**AND WE WILL HELP YOU TO
DISTINGUISH THEM:**

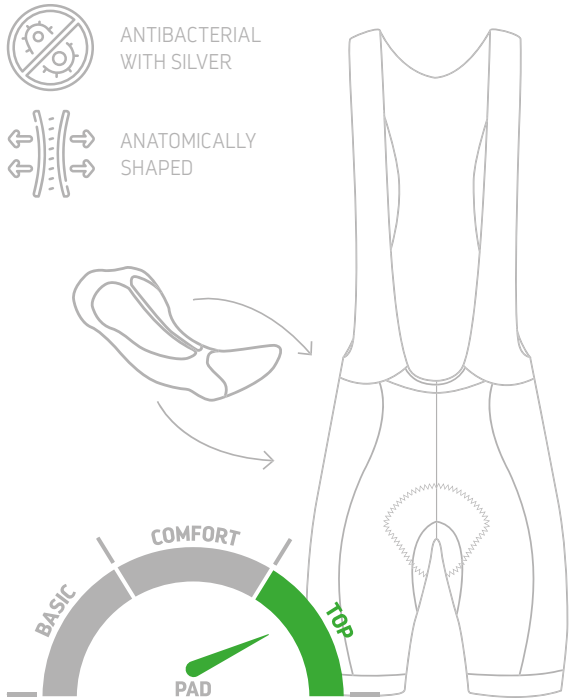

BASIC CYCLING PAD:

Basic cycling pad is intended for normal use when doing recreational sports. It is shaped to suit a more comfortable upright sitting position during recreational riding such as MTB, Trekking bike and E-Bike.

COMFORT CYCLING PAD:

Comfort cycling pad is for cyclists who spend about 4-6 hours riding a bike. It is designed for those, who are looking for some comfort on the road, gravel or MTB.

TOP CYCLING PAD:

Thanks to the Elastic Interface® cycling pad, a seven-hour ride will not be a problem. The bikepad is created with a focus on maximum performance and comfort on the road, gravel and MTB.

OUR

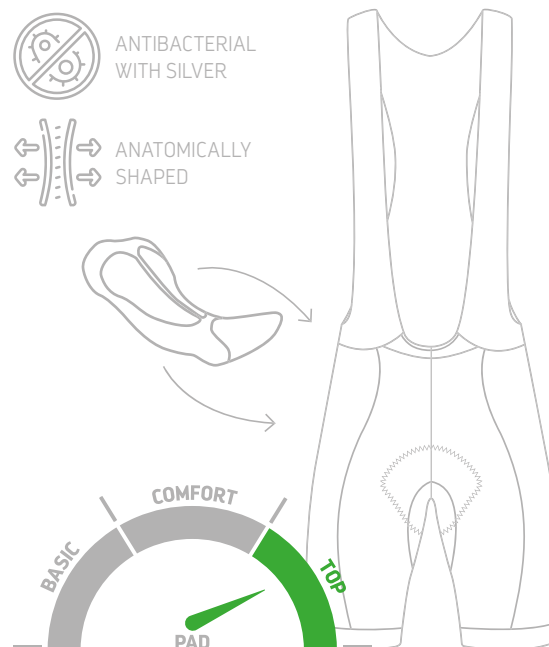

ROAD CYCLING MEN

INTRODUCING THE NEW TOP LINE: INSPIRED BY THE MECCA FOR THE CYCLISTS

Passo di Gavia - the legendary pass in the shadow of even more brutal Passo dello Stelvio. The calmness of the surrounding mountains together with the magical atmosphere of some of the decisive moments of the Giro d'Italia. This place precisely inspired us to develop the new TOP road series, which will appeal to real cycling experts! The entire collection was

created in close collaboration with elite cyclists from Roman Kreuziger Cycling Academy: cyclists who demand maximum performance. We chose an anatomical cut focusing primarily on performance. Ultra-light breathable material ensures the more regulation even at extreme summer temperatures. The biggest benefit is an extremely comfortable cycling pad.

TOP CYCLING PAD:

One of the key products in this line are Gavia cycling bib shorts with a Four Zone 3D cycling pad, laser-cut bibs, anatomical cut, minimal number of seams and minimalist design. They are designed for an extreme performance. The connection with Passo di Gavia is really not just a

coincidence! Thanks to the Elastic Interface® cycling pad, a seven-hour ride will not be a problem. The bikepad is created with a focus on maximum performance and comfort on the road, gravel and MTB. It is suitable for cyclists who spend up to 7 hours or more cycling.

MEN
AUTUMN & WINTER

OUR LIMITED EDITION: **#SILVINIRIDERS**

Although cycling is primarily an individual sport in which riders strongly compete, it also connects across sports, generations, and nations. We also want to mainly connect people with their passion for cycling and the Silvini brand, and this is exactly the goal of the Silvini Riders collection. The luxurious black and gold design and the image of the winged wheel, which has been a symbol of speed and power for centuries, will attract attention at first sight.

BECOME A MEMBER OF THE
#SILVINIRIDERS CLUB!

CHOICE LINE
MEN

We looked for inspiration for the design of the Choice line primarily in the beginnings of professional cycling when colours were conservative and individual stripes were considered ostentatious. The design of this collection combines history with the present, traditional design with extravagant and classic with modern. The strong colours brighten the jersey, but at the same time do not disturb the discreet appearance of the collection, which is intended for all cyclists across generations.

**BASIC LINE
MEN**

Ultra-light materials, simple design, colourful reflective elements in fabric tones and attention to the detail; all this characterizes our Basic Line. The jerseys are complemented by the coat of arms with the Silvini logo. Similar coats of arms have their origins in the Medieval Age, when knights marked their armour in this way, so that the company could distinguish them from others. Such coats of arms are used in the same way by bicycle manufacturers and are thus inextricably connected to cycling.

MTB & ENDURO CYCLING

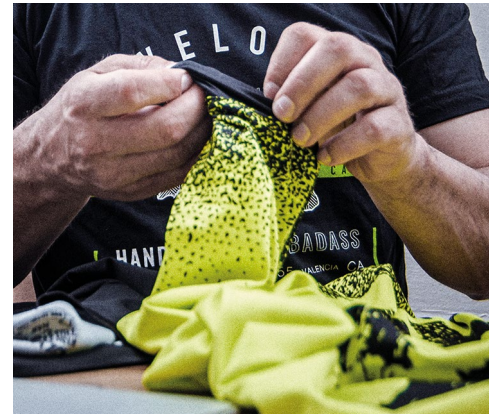

MEN

INTRODUCING THE NEW ENDURO LINE: **DEVELOPED TOGETHER WITH ONE OF THE BEST CZECH RIDERS**

One of the best Czech riders, a three-time world champion, representative in BMX and MTB (fourcross), an Olympian and also an organizer of many races. This is Michal Prokop, our new ambassador! We are proud that Michal became our partner and participates in the development of a new Enduro collection so that it

is properly adapted to deliver maximum performance. In this line, we place a great emphasis on the combination of style, comfort and clothing functionality. The selected materials from recycled material are very pleasant, they easily wick away sweat, dry quickly and, most importantly, will not limit your movement.

ENDURO LINE

MEN

We have fulfilled your wishes and added a complete novelty to the Enduro line, a flannel shirt. You will appreciate the flannel shirt not only for enduro or gravel bikes, but also for your trips to work. We offer the shirt in women's and men's versions, the design of both is the same, the only difference is in the cut and the colour of the sewn-on logo. You will certainly appreciate its functional details, such as a loop in the pocket for the possibility of holding your glasses. Go ahead, try it too!

MTB LINE MEN

After a longer break, our MTB line has undergone several significant changes. At first, you will certainly notice the colour change of this collection, on the contrary, we have kept the looser cut. The jerseys will perfectly fit you, as you are used to. You can also look forward to the new colour variants with the loose Rango cycling shorts. The quality of the material and other parameters, such as a simple system for attaching inner padded cycling shorts and several pockets for your essentials, remain the same.

FREETIME LINE

MEN

Bicycle and coffee are the two inseparable things. They connect cyclists, but at the same time they arouse passion and addiction in them, which also became an inspiration for our Free-time collection. Show what your passion is; what you love and what is your driving force in your free time. All this is expressed in our new line with its design, cuts and materials used.

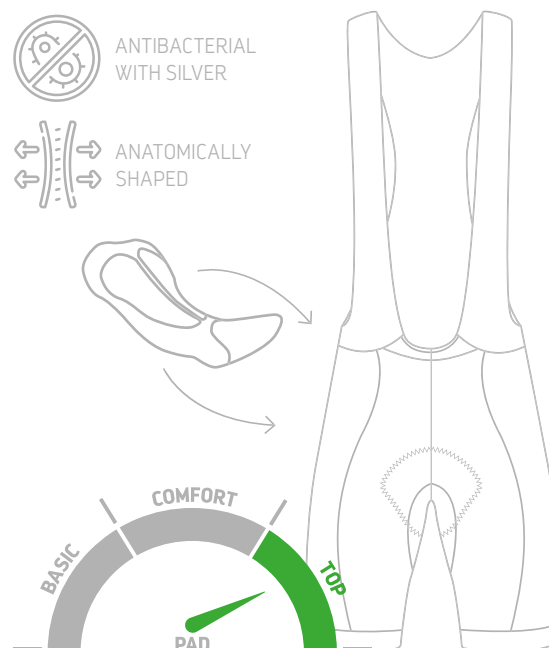

ROAD CYCLING

WOMEN

INTRODUCING THE NEW TOP LINE: INSPIRED BY THE MECCA FOR THE CYCLISTS

Passo di Gavia - the legendary pass in the shadow of even more brutal Passo dello Stelvio. The calmness of the surrounding mountains together with the magical atmosphere of some of the decisive moments of the Giro d'Italia. This place precisely inspired us to develop the new TOP road series, which will appeal to real cycling experts! The entire collection was

created in close collaboration with elite cyclists from Roman Kreuziger Cycling Academy: cyclists who demand maximum performance. We chose an anatomical cut focusing primarily on performance. Ultra-light breathable material ensures the more regulation even at extreme summer temperatures. The biggest benefit is an extremely comfortable cycling pad.

TOP CYCLING PAD:

One of the key products in this line are Gavia cycling bib shorts with a Four Zone 3D cycling pad, laser-cut bibs, anatomical cut, minimal number of seams and minimalist design. They are designed for an extreme performance. The connection with Passo di Gavia is really not just a

coincidence! Thanks to the Elastic Interface® cycling pad, a seven-hour ride will not be a problem. The bikepad is created with a focus on maximum performance and comfort on the road, gravel and MTB. It is suitable for cyclists who spend up to 7 hours or more cycling.

OUR LIMITED EDITION: **#SILVINIRIDERS**

Although cycling is primarily an individual sport in which riders strongly compete, it also connects across sports, generations, and nations. We also want to mainly connect people with their passion for cycling and the Silvini brand, and this is exactly the goal of the Silvini Riders collection. The luxurious black and gold design and the image of the winged wheel, which has been a symbol of speed and power for centuries, will attract attention at first sight.

BECOME A MEMBER OF THE
#SILVINIRIDERS CLUB!

**BECAUSE BIKE RIDE
FIXES EVERYTHING...**

CHOICE LINE

WOMEN

We looked for inspiration for the design of the Choice line primarily in the beginnings of professional cycling when colours were conservative and individual stripes were considered ostentatious. The design of this collection combines history with the present, traditional design with extravagant and classic with modern. The strong colours brighten the jersey, but at the same time do not disturb the discreet appearance of the collection, which is intended for all cyclists across generations.

BASIC LINE WOMEN

Ultra-light materials, simple design, colourful reflective elements in fabric tones and attention to the detail; all this characterizes our Basic Line. The jerseys are complemented by the coat of arms with the Silvini logo. Similar coats of arms have their origins in the Medieval Age, when knights marked their armour in this way, so that the company could distinguish them from others. Such coats of arms are used in the same way by bicycle manufacturers and are thus inextricably connected to cycling.

GRAVEL LINE WOMEN

Gravel has been a hit in the recent years, so we could not forget about women either. This discipline combines road cycling with cyclocross, mountain bikes and enduro, and therefore gives people their freedom. Our new women's Gravel collection will give you the same freedom. The design of the jerseys is inspired by a modern "camouflage" pattern, and thanks to the watercolour technique, the overall look looks unique. Wear this collection and experience the magic of gravel.

FREETIME LINE WOMEN

Bicycle and coffee are the two inseparable things. They connect cyclists, but at the same time they arouse passion and addiction in them, which also became an inspiration for our Free-time collection. Show what your passion is; what you love and what is your driving force in your free time. All this is expressed in our new line with its design, cuts and materials used.

DISCOVER OUR FIRST LAYER: FROM NATURAL RENEWABLE MERINO WOOL

Our goal is to fill your sports wardrobe from underwear to the last upper layer, so that you feel comfortable during sports and can fully concentrate only on your performance. This is also why our portfolio includes the first layer made from Merino wool - an ideal material for functional underwear production. This material has excellent thermoregulation properties: it dries quickly and is antibacterial as well as odour

resistant. Unlike other functional materials, it keeps you warm when worn for a long time, even when wet. We prefer quality; therefore, we cooperate with a factory that uses the best wool from sheep raised on farms in New Zealand. Their wool is silky smooth and breathable at the same time. You will feel comfortable and we will be proud to be able to provide you with this comfort.

OUR NEW GENERATION:

We dress even the smallest ones! And why? Because little riders deserve to feel as comfortable as we adults. The children's cycling pad and other perfectly fitting clothes will take care of the comfort. Because the comfort is the most important thing for children in their first cycling steps. We believe that our colourful designs will bring a lot of fun to the little ones.
