

CYCLING SPRING SUMMER 2024

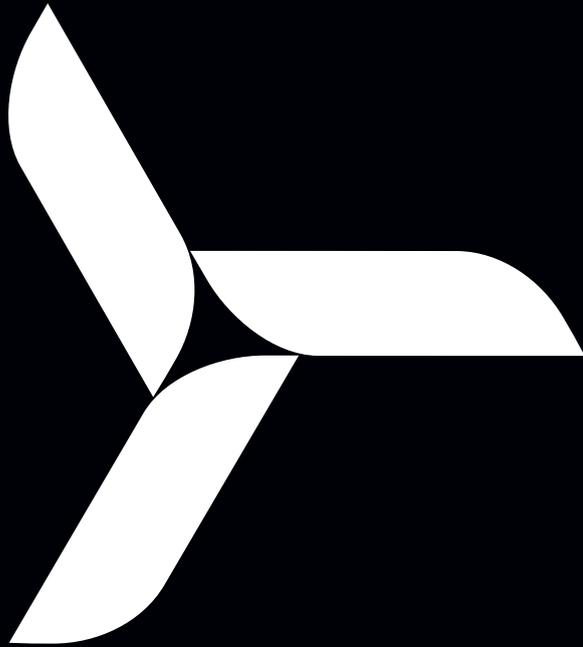

SILVINI[®]

TECHNICAL
SPORTSWEAR

We design and manufacture professional cycling and ski apparel for maximum performance and comfort. We focus on various styles of cycling, from road & gravel, MTB & enduro to urban and offer wide selection for skiers: cross-country, ski touring, outdoor and lifestyle.

®

We put great emphasis on technology. We believe in research and development of materials and innovations that enable cyclists and skiers to rise to the top. We make all our clothing from carefully selected materials, taking into account the specific form of both sports.

A handwritten signature in white ink, appearing to read 'Dušan Neuwirth'. The signature is fluid and cursive, with a prominent initial 'D'.

Dušan Neuwirth
Owner and founder

The birth of SILVINI was led by Jessie and Dušan, who invited their friends Jan and Claudio to join them. Although we come from different parts of the world, we are united by our passion for sport and our desire to produce sportswear that combines perfect functionality, original design and uncompromising comfort. And so, in 2009, SILVINI was born — a Czech brand based in the heart of Europe with an international reach.

MINIMALISM AND SIMPLE ELEGANCE

The new TEAM collection is characterized by a clean and tasteful design where minimalism and simple elegance combined with timeless style create clothing that excels not only in quality but also in maximum functionality.

High-quality materials and carefully crafted details are selected with regard to their properties and practicality to meet the highest requirements for performance and comfort during sports activities. Clothing from the TEAM series is meticulously crafted down to the smallest details, with an emphasis on the best functionality and comfort in every situation.

A cyclist is riding a road bike on a winding asphalt road that curves along a rocky cliffside. The cliff is covered in green shrubs and trees. In the background, the ocean is visible under a clear sky. The overall scene is a scenic coastal ride.

RETURN TO THE TRADITIONS

In our RIDERS collection, we are inspired by a kaleidoscope that allows us to look at the world through a positive lens. Traditional folk motifs that are mirrored in the texture of the kaleidoscope appear in the design. A return to the traditions and values of individual countries is an important theme. We are committed to respecting different cultures and their heritage and creating new creative connections. Our dedication to diversity is reflected in our design and material selection.

MAXIMUM PERFORMANCE AND COMFORT

The Passo di Gavia and the surrounding mountains provided a great source of inspiration for the development of the new ROAD PRO cycling equipment series. This range was created in collaboration with elite cyclists from the Roman Kreuziger Cycling Academy who demand high performance and quality. The anatomical cut and ultra-light breathable material are designed to provide maximum comfort and temperature regulation even in extreme summer conditions. The biggest advantage is the very comfortable cycling pad that ensures a high level of comfort even during long rides. Overall, ROAD PRO offers an ideal solution for demanding cyclists who want maximum performance and comfort.

COLLECTION FOR ALL CYCLISTS ACROSS GENERATIONS

Lightweight materials, simple design, colored reflective elements in shades of fabric, and attention to the detail – these are characteristics of our Essential range. The entire collection is made from very lightweight and breathable materials with an emphasis on functionality. Jackets and vests from this collection can be easily folded into an inner pocket within seconds, and the hood of the jacket can be hidden in the collar. The entire Essential collection is designed in modern neutral colors suitable for all cyclists across generations.

ESSENTIAL

A photograph of two cyclists riding away from the camera on a narrow, paved stone path in a village. The cyclist on the left is wearing a white long-sleeved shirt, black shorts, white socks, and a white helmet. The cyclist on the right is wearing a black long-sleeved shirt, black shorts, red socks, and a yellow helmet. The path is flanked by stone walls and buildings. On the right side, there are stone steps leading up a hill. The background shows a stone wall with a window and some foliage. The overall scene is set in a rustic, stone-walled environment.

32-39

GELO M|2231

Jacket S-3XL

The Gelo jacket is made of densely woven fibers, ensuring its high quality and durability. Thanks to the packable hood in the collar and lightweight construction, it's ideal for wind protection during sudden weather changes. It's a reliable and lightweight choice for protection against adverse weather conditions.

FREEDOM TO EXPLORE NEW TERRAINS

The Gravel line combines road cycling with cyclocross, mountain biking, and enduro, providing people with the freedom to explore new terrains. The main idea behind creating this line was to offer comfortable yet technically equipped clothing, with an emphasis on bikepacking concept and special cycling pads for maximum comfort during rides. The design of the entire collection is inspired by nature, using modern natural colors and camouflage pattern to blend in with the surrounding environment. With this line, you will experience the magic of the gravel style and show respect for nature and your love for cycling.

Larrea cycling shorts from the Gravel collection are unique due to their 2-in-1 construction. They combine outer shorts made of Woven Lite fabric with inner compression shorts made of Compress Power material. The high-quality inner pad is from the brand ELASTIC INTERFACE. As a result, the shorts are very comfortable to wear while cycling and provide a feeling of freedom.

The men's enduro jacket combines windproof Windbreaker material on the front with Quatroflex Power membrane on the back, sleeves, and hood. Light MESH material in the armpits provides optimal ventilation, making the jacket highly functional and comfortable. It has a water column of 10,000 mm and breathability of 10,000 g/m²/24 hours.

4343

FABRIANO MP1805

Shorts S-3XL

The enduro shorts offer a great combination of comfort and functionality. Thanks to the plastic buckle at the waist, you can easily adjust the size and customize them to your needs. The back of the waist is complemented by elastic, ensuring comfortable and secure wearing. The Woven stretch material used perfectly adapts to your body and allows unrestricted movement.

THE FREEDOM OF MOVEMENT

The MTB line was designed keeping in mind the comfortable loose fit to suit various different styles of mountain biking and to ensure the absolute freedom of movement. The key feature of these garments is their durability and easy maintenance. Moreover, this clothing is produced up to large sizes, allowing a wide range of people to spend their time in an active way.

INSPIRED BY THE STREETS OF PRAGUE

This collection is 100% emotion and 0% emission. Made from natural materials with many technical and safety elements, this collection is perfect for city rides. Inspired by the streets of Prague, the design reflects the essence of the city, blending maps of Prague, technical drawings of buildings, and graffiti. We believe that you will truly enjoy the maximum emotions and experiences from this collection, whether you're cycling to work or meeting friends for coffee. Because in the city, the possibilities are endless.

COMFORTABLE AND STYLISH

Our Training line not only offers lightweight and functional elastic materials, but also attention to detail, modern colors, and reflective elements for increased safety. The products are designed with comfort in mind, making them ideal for various sports activities such as athletics, yoga, strength training, as well as for leisure activities. With our Training line, you will feel comfortable and stylish not only during your workouts but also when relaxing.

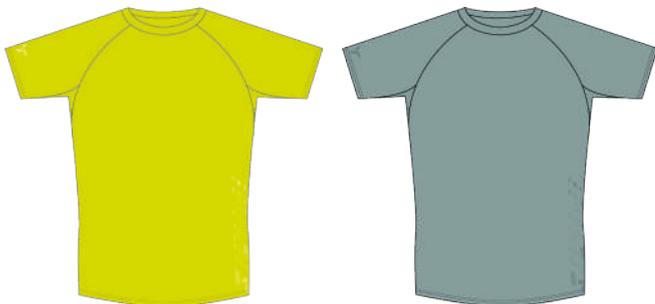

TRAINING

A high-angle, close-up photograph of a person's legs and arms as they perform a deadlift. The person is wearing blue athletic shoes and white socks. Their hands are gripping a dark metal barbell. The person's left wrist is wrapped in a black and orange wristband. The floor is a dark, textured rubber mat. The lighting is dramatic, highlighting the muscles of the legs and arms.

COLORFUL DESIGNS FOR YOUNG RIDERS

Our new collection aims also on the smallest cyclists! Why? Because even little riders deserve the same attention as adults. Children's cycling inserts and other perfectly fitting clothing will take care of comfort. Because comfort is the most important thing for children when taking their first steps on a bike. We believe that our colorful designs will bring a lot of fun to young cyclists.

MATERIALS

QuatroFLEX 

4-direction elastic,
quick-dry material.

QUATROFLEX **XTREME**
FABRIC

Elastic three layer material:
Water column: 20 000 mm
Breathability: 40 000 g/m²/24 h
Protects against high winds

POWER **STRONG**
FABRIC

Durable three layer material:
Water column: 20 000 mm
Breathability: 20 000 g/m²/24 h
Protects against winds

CO **MPRESS** power

High compression material
that adapts to the figure
and supports muscle
regeneration.

POWERtherm 

Insulated material with
fleece lining on inner side,
efficient for sweat removal
and heat insulation.

Windbreaker / WR

Wind resistant, light,
thick-woven material.

lightMESH 

Very light, quick-dry material
with excellent breathability.

 **WOVEN** light

Lightweight, quick-drying,
woven material with high
breathability.
